4. Education Department Field Visit Report 2019-20:

4.1. Pahumara, Lakhimpur Visit: The objective of the study was to sensitize the students about the harmful impact of environmental pollution on environment. The study was conducted on 25-1-2020 at Pahumara, Lakhimpur. The finding of the study was that students become more aware and alert about the harmful impact of environmental pollution on environment.

4.1.A.: Pahumara, Lakhimpur Visit Picture

6. Education Department Field Visit Report 2021-22

6.1. Likabali, Silapathar, Dhemaji: The objective of the study was to see the status of Likabali Picnic Spot in terms of satisfaction, awareness towards Plastic Pollution, facilities available at the place. The study was conducted on 9/1/2022 at Likabali Picnic spot, Likabali, Silapathar. The finding of the study was that the people get satisfaction whenever they visited the place. It

was also found that people are aware of plastic pollution as well as the facilities available in the picnic spot.

15. Add on Course:

Education Department Add On Course 2022

Department: Education Department of L.T.K. College

Class: B.A. 2nd Semester

Paper Title: Data Analysis in SPSS

1. Introduction: Today we are living in a 21st century where we need different skills in order to survive in this competitive world. The rapid changes in the field of social sciences requires additional set of knowledge and skills beyond the prescribed curriculum of the educational institutions. Now a day we gather different types of data and in order to develop better understanding about that, we need to process the data in a rapid manner. Though our university curriculum clearly defines the programme specific courses, but our students needs some specialised knowledge about the uses of different data analysis software available in the market. In view of this, Department of Education of L. T. K. College like to offer an Add-On course in the field of Data Analysis using SPSS software. This course will be conducted by the experts

who have knowledge in the field of SPSS which help the students to stand apart from the rest in the job market by adding further value and skills to their resume.

2. Objectives: This course intends to provide sound understanding of data analysis process and how this could be applied in different research activities. The learning objectives are described in the following manner:

- i. To enhance the knowledge and skills in the field of data analysis by using SPSS software.
- ii. To bridge the gap between theory and practice.
- iii. To provide hands-on-training in using SPSS in the data analysis process.
- iv. To develop an in-depth understanding about the descriptive statistics which are used for the analysis of data.
- v. To develop a comprehensive understanding about the inferential statistics which are used for making inferences about the study.

3. Learning Outcome: After the completion of the course the learners will be able to-

- i. Define the concept of data, variable, hypothesis, normal probability curve
- ii. Understand the meaning of level of significance, degrees of freedom
- iii. Develop the mastery in setting up an SPSS file
- iv. Develop different graphs by using SPSS software
- v. Develop in-depth understanding about the concept of descriptive statistics
- vi. Comprehend the concept and situation where they can use inferential statistics.

4. Syllabus

Unit	Content	Marks	L	P	T
1	Concept 1.1.Data 1.2.Variable 1.3.Hypothesis 1.4.Normal Probability Curve 1.5.Scales of Measurement 1.6.Level of Significance 1.7.Degrees of Freedom 1.8.One-tailed Test and Two-tailed Test 1.9.Setting Up an SPSS Data File		5	3	2

2	Graphical Representation of Data 2.1. Bar Diagram 2.2. Histogram 2.3. Pie-diagram 2.4. Frequency Polygon		1	3	1
3	Descriptive Statistics 3.1. Frequencies 3.2. Measures of Central Tendency 3.3. Correlation		3	3	1
4	Inferential Statistics 4.1. t-test 4.2. F-test		3	4	1

5. Details of Inauguration Programme (With Photographs): Not Available. But other photos are available.

10. Detail Report on Results: The total mark of this add on course is 100. Marks distribution of this add course are: 10 marks were allotted from the regular class attendance, 40 marks were allotted for theoretical examination and 50 marks were allotted from the practical examination. On the basis of the computation of all 3 categories, students were allotted with different grades starting O to P. The detailed grading procedure of this add on course is given below:

Letter Grade With Meaning		Grade Percentage
O	Outstanding	Above 90%
A+	Excellent	80% to 90%
A	Very Good	70% to below 80%
B+	Good	60% to below 70%
B	Above Average	50% to below 60%
P	Pass	40% to below 50%
F	Fail	Below 40%
Abs	Absent/Incomplete	0

11. Question Papers:

Education Department Add On Course (Theoretical) Final Examination, 2022

Department: Education Department of L.T.K. College

Class: B.A. 2nd Semester

Paper Title: Data Analysis in SPSS

Full Marks: 40

Time: 90 Minutes

1. Answer the Following Questions:

1X5=5

- a. What is Data?
- b. Write down one difference between bar diagram and histogram?
- c. Give one example of nominal scale.
- d. Who invented the product moment method?
- e. F-test helps us to see the difference between two groups-True or False.

2. Write Briefly on the following points (Any Three):

5X3=15

- a. Concept of t-test
- b. Scales of measurement
- c. Meaning of Hypothesis
- d. Types of F-test
- e. Co-relation of co-efficient

3. What is normal probability curve? Discuss the characteristics of normal probability curve.

3+7=10

4. Describe the benefits of using mean and median.

5+5=10

Education Department Add On Course (Practical) Final Examination, 2022

Department: Education Department of L.T.K. College

Class: B.A. 2nd Semester

Paper Title: Data Analysis in SPSS

Full Marks: 50

Time: 2 Hours

1. A researcher has collected data from 50 students about different variables such as gender, location, caste, attitude, academic achievement in order to conduct a study. For better visualization of data, the researcher need to use different descriptive statistics as well as inferential statistics. For this research, the researcher formulated different hypotheses which need to be tested and proper interpretation is needed. Some Examples of null hypotheses are:

H₀1: There is no significant difference between rural and urban students in respect to their attitude.

H₀2: There is no significant difference among the caste of different students in respect to their academic achievement.

H₀3: There is no significant relationship between the academic achievement and attitude score of the students.

In such a situation, you need to find out descriptive statistics (mean, median, mode, range, maximum score, minimum score, frequencies, cumulative percentage, bar diagram), independent sample t-test, one-way ANOVA, PEARSON co-relation from the following data and give proper interpretation of these results:

(Marking Pattern: Data Entry in SPSS: 15, Descriptive Statistics: 20, independent sample t-test:5, One-way ANOVA: 5, PEARSON co-relation: 5)

Sl. No.	Name	Caste	Location	Attitude Score	Academic Achievement Score
